Summary

I am a freelancer with 2 years extensive experience in software development with deep knowledge of technology, software and programming. I have hands-on experience developing some software with my team. As an experienced freelance software developer, I am proficient in analyzing, processing and implementing user requirements and solving life problems in the form of desktop, website and mobile based software. Feel free to message me at mhasan8801@gmail.com anytime for further discussion and making great collaborations.
